PALLADIUM FCP – Cairn Mediobanca Strata UCITS Credit Fund CLASS I4 (EUR) ISIN: LU1808849555

This Fund is managed by Mediobanca Management Company SA

Objectives and Investment Policy

The Fund seeks to produce positive returns from a diverse portfolio of developed market European credit positions generated from a combination of interest received and trading gains.

The Fund will adopt a highly flexible approach allowing the investment manager to allocate capital across a number of sectors of the credit market (each an "Asset Class"), each being managed by dedicated portfolio management and research teams. The initial Asset Classes are Financials, Corporates, Asset-Backed Securities ("ABS") and Special Opportunities. The Fund may invest in a wide variety of credit instruments including bonds, notes, convertible bonds and/or hybrid capital instruments (such as contingent convertible instruments ("CoCos")) and structured credit instruments including collateralised loan obligations ("CLOs") and ABS (including consumer ABS, residential mortgage backed securities ("RMBS") and commercial mortgage backed securities ("CMBS")). The Fund may use derivative instruments such as options, single name or index credit default swaps ("CDS"), total return swaps ("TRS") and forwards for investment purposes or to optimise or reduce exposure in conjunction with the investment manager's view.

The credit instruments listed above may embed financial derivatives and/or structural leverage.

While both long and short positions may be employed, it is expected that the portfolio will be predominantly long. Foreign exchange and interest rate exposures resulting from the credit instruments listed above will be hedged through the use of financial derivatives.

The Fund will aim to be diversified in terms of industry, geographic region, sector and rating. The Fund will not invest in assets with a credit rating of CCC or below.

The Fund may enter into securities lending, repurchase and reverse repurchase transactions and TRS for efficient portfolio management and/or hedging purposes.

The Fund is open-ended which means that unitholders may request to redeem their units in the Fund on any business day at prices based on the applicable net asset value per unit.

Unitholders may request the conversion of their units to units in another class of units of the Fund.

The income, earnings and gains of the Fund will be capitalised and reinvested on behalf of unitholders.

Recommendation: The Fund may not be appropriate for investors who plan to withdraw their money in the short-medium term. A typical investor has an investment horizon of 2-3 years or more.

The net asset value of the Fund will be determined on each business day on which banks are open for business simultaneously in Luxembourg and London except for 24 and 31 December. Redemption requests will be closed at 12.00 p.m. on the business day preceding the relevant valuation day.

Minimum Initial Investment: 100,000 EUR.

Minimum Subsequent Investment: 100,000 EUR.

The Fund is denominated in EUR.

The Fund is actively managed. The Fund is applying performance fees whose calculation is indicated under the heading "Charges taken from the Fund under specific conditions" and in the past performance section below.

Risk and Reward Profile

The risk indicator is calculated using simulated data, which cannot be used as a prediction for the future risk profile of the Fund. Therefore, the risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the Fund may shift over time.

Even if the Fund is in the lowest risk class, you can lose money as no investments are entirely risk free.

At this time, the level of the risk and reward profile is equal to 3, due to the expected volatility of the Fund and the instruments in which the Fund invests.

The risk and reward profile does not take into consideration the following risks, which can affect the Fund:

- credit risk: which is linked to the debt securities the Fund invests in;

- operational risk: which may occur due to technical issues for example natural disasters, misunderstandings and fraud;
- counterparty risk: which may occur due to the fact that the Fund may have exposure through contracts with third parties;
- liquidity risk: which may occur due to the fact that investments made in financial instruments could have a low level of liquidity in some extraordinary circumstances for example in the case of a market crash or default of debt claims on an issuer's side; and
- risks linked to the investment in financial derivatives, i.e. the risks that variations in the market prices of the underlying instruments may be magnified in terms of profits and losses for the Fund (leverage).

For more detailed information on the risks associated with an investment in the Fund, please refer to the section in the Prospectus entitled "Risk Factors" and discuss with your professional advisers.

Charges for this Fund

The charges paid by the investors are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of the investment.

Charges taken from the Fund under certain specific conditions

Performance fee

15.00% of any positive difference in the value of each of the units above the higher of the high water mark or the net asset value plus a hurdle, calculated annually. Please refer to the Prospectus for the detailed methodology. For the last calendar year the performance fee was 0.53%.

The ongoing charges figure is based on expenses for the period of 12 months ended 31/12/2019. This figure may vary from year to year.

The ongoing charges exclude portfolio transaction costs and the performance fees.

You may also be charged an anti-dilution levy on entry to or exit from the Fund of up to 3% of the net asset value per unit.

More detailed information on charges can be found in the Prospectus of the Fund.

Past Performance

As the Fund has no performance data for one complete year, there is insufficient data to provide a useful indication of past performance.

The graph shows annual performance in EUR for the units with a launch date: 14 May 2019.

Past performances are not a guarantee of future performances.

The net asset value of the Fund can change at anytime. The performance does not include expenses and commissions.
