PALLADIUM FCP

General Information

PALLADIUM FCP (the "Fund") is a Mutual Fund established in Luxembourg in accordance with Part I of the Law of December 17, 2010 on Undertakings for Collective Investment, as amended.

The Management regulations in force were signed on February 21, 2019. The mention of their deposit with the Luxembourg Trade and Companies Register (the "R.C.S.") was published in the RESA on February 28, 2019.

The assets of the Fund are the joint and indivisible property of the participants and are segregated from the assets of the Management Company. All the units have equal rights. No restrictions are established on the amount of the assets or on the number of units representing Fund's assets. The net assets of the Fund must amount to at least EUR 1,250,000.

1. Periodic reports

The accounting year of the Fund starts on July 1 and terminates on June 30.

The combined accounts of the Fund are maintained in EUR being the currency of the share capital. The financial statements relating to the various separate sub-funds are expressed in the reference currency of each sub-fund.

2. Unitholders' information

a) Net asset value

The net asset value per class of units is available at the registered office of the Management Company of the Fund and is published in "Il sole 24 Ore".

b) Subscription and redemption prices

The subscription and redemption prices of each class of units are rendered public each day at the counters of the Depository Bank and in banks offering financial services.

c) Notification to the unitholders

The other information addressed to the unitholders is published in the "Registre de Commerce et des Sociétés" in Luxembourg if this publication is prescribed by the management regulations or the prospectus. Moreover, they might be published in any newspaper published in the Grand-Duchy of Luxembourg and other newspaper(s) that the Board of Directors of the Management Company may determine.

d) The list of changes in the portfolio of each sub-fund is available free of charge upon request at the registered office of the Management Company of the Fund.

Risk Measurement and Global Exposure

The Management Company uses a risk management process that enables it to monitor and measure at any time the risk of the portfolio positions and their contribution to the overall risk profile of the sub-funds. In accordance with the law of December 17, 2010, as amended, and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier "CSSF", the Management Company reports to the CSSF on a regular basis on the risk management process.

The Value at Risk (VaR) approach is used to monitor and measure the global exposure of the sub-funds PALLADIUM FCP - CRESCITA PROTETTA and PALLADIUM FCP - CAIRN MEDIOBANCA STRATA UCITS CREDIT FUND.

PALLADIUM FCP

Remuneration

PALLADIUM FCP adopted the Remuneration Policy of Mediobanca Management Company S.A. (the "Management Company").

The Remuneration Policy is aimed at ensuring that any relevant conflicts of interest can be managed appropriately at all times and sets out practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the sub-funds, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of those sub-funds.

This Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Funds under management and the investors in those Funds and includes measures to avoid conflicts of interest. In addition, the remuneration policy adopted applies the principles laid out under the UCITS Directive.

Identified staff

The UCITS Directive requires the Management Company to identify the categories of staff whose professional activities have a material impact on the risk profiles of the sub-funds.

The identified staff for the purpose of this Remuneration Policy are Mr. Fabio Gabriele and Mr. Fabio Ventola as Conducting Officers of Mediobanca Management Company S.A., Mr. Alessandro Ragni as Board Member of Mediobanca Management Company S.A., Mr. Giovanni Mancuso and Mr. Massimo Amato as Independent Members of the Board of Mediobanca Management Company S.A., and Mr. Giorgio Paleari as Head of Internal Audit of the Parent Company (Mediobanca S.p.A.).

Structure of remuneration

1. Fixed remuneration
2. Variable remuneration

The Management Company dedicates itself to collective asset management by managing a fund portfolio. Therefore, the variable component is predominantly established on a quantitative basis according to the actual profitability of the Management Company, taking into account any risk alignments.

The amount of individual bonuses may vary at the discretion of the management, according to assessments made regarding compliance with the business model, the attainment of targets and the absence of any critical situations or other prejudicial factors (i.e. in relation to Risks, Compliance and Anti-Money Laundering and Human Resources).

To measure performance, this discretion will be accompanied by a performance measurement system introduced at the start of each financial year in line with the allocated budget. The system will be quantitative and qualitative in nature and will consider corrective elements linked to the areas of compliance referred to above. The guidelines for the incentive scheme are determined in accordance with the policies of Mediobanca S.p.A. and the Mediobanca Group.

During its last accounting year ended June 30, 2021, the Management Company remunerated staff members as follows:

Total fixed remuneration*:	EUR 769,379.39
Total variable remuneration**:	EUR 221,110.04
Total remuneration:	EUR 990,489.43

Number of beneficiaries: 6.

Aggregate amount for senior management, fund managers, control functions and other risk takers whose professional activities have a material impact on the risk profiles of the sub-funds and identified in the remuneration policy as "identified staff":

Total fixed remuneration*:	EUR 380,814.96
Total variable remuneration**:	EUR 105,000.00
Total remuneration of identified staff:	EUR 485,814.96

Aggregated amount of remuneration for other members of staff EUR 504,674.47.

* Benefit in Kind are excluded

** This amount is the estimated variable remuneration to be paid to the different staff members for the year ended June 30, 2021, in compliance with the remuneration policy.

EU delegates

For the management of the sub-fund Palladium FCP - Crescita Protetta, the gross total remuneration paid during the period July 1, 2020 - June 30, 2021 by Mediobanca SGR S.p.A. to the personnel (2 units) is equal to EUR 34,230.96, split into the fixed component equal to EUR 26,630.96 and into the estimated variable component equal to EUR 7,600.00.

For the management of the sub-fund PALLADIUM FCP - Cairn Mediobanca Strata UCITS Credit Fund the gross total remuneration paid during the year ending June 30, 2021 by CAIRN CAPITAL LIMITED to the personnel (5 units) is equal to EUR 1,660,839.00, split into the fixed component equal to EUR 1,053,117.00 and into the estimated variable component equal to EUR 607,722.00.

Directors' Report

INTRODUCTION

Assets under management increased during the year from EUR 290.2 million as of June 30, 2020 to approximately EUR 320.5 million as of June 30, 2021. The above mentioned increase is mainly due to positive cash flows resulting from net subscriptions.

MACROECONOMIC SCENARIO

Global equity markets reported a positive month for July, driven by the US and Emerging Markets. European indices were negative with the Stoxx 600 reporting a performance of -1.1% with Financials dragging down the index. Defensive names were positive. Value returned to underperform after the previous month's break in what is now quite a long trend, with the MSCI Europe Value down -3.8% in the month, whilst the Growth index ended the month positive. The ongoing Q2 reporting season proved to be one of the weakest on record, as it accounted for the months that were hit the hardest by Covid-19. Still, expectations had already been quite depressed and the actual numbers, in aggregate, were surprising on the upside. Corporate outlooks remain cautious, especially for those companies structurally impacted by the crisis. August was a strong month for global equity markets, driven once again by US stocks.

European markets more than recovered July losses, with the Stoxx 600 closed the month up 3% ca. Despite an increase, in some countries, in new cases of Covid-19, the sectors most exposed to the health crisis outperformed the main indices, with Travel & Leisure and cyclical names amongst the best performers. This contributed, during the month, to an outperformance of value names in Europe. On the corporate side, the Q2 reporting season ended as it had started with one of the weakest sets of numbers on record, but mostly better than expected on already depressed expectations. Another key event in August was Jerome Powell releasing details of the FED's review of longer-run goals and the monetary strategy, with the main change affecting inflation targeting: instead of pursuing an absolute goal, the aim will now be to achieve an average of 2% inflation over time. September saw stocks fall on waning hopes of a second round of stimulus. Also, discord between the United States and China ramped up following President Trump's threatened recourse against American companies that create jobs overseas or that do business with China.

Technology shares took a sizable hit, particularly early in the month. September saw several days of favorable returns, likely due to bargain hunters. Unfortunately, there wasn't enough buyers to prevent the benchmark indexes from falling lower by the end of each week of the month. September saw each of the indexes fall, led by the Nasdaq (-5.2%), followed the S&P 500 (-3.92%), the Russell 2000 (-3.45%), and the Dow (-2.28%).

The bond market has been more resilient in comparison to the equity market as the 10-year government bond yield slightly increase from 6.864% to 6.967% in September. The US Treasury yield slipped from 0.71% to 0.69%. Equity markets were negative in October, with the MSCI World down more than 3%. Europe underperformed the global indices, as the Stoxx Europe 600 closed the month more than 5% down. The Technology and Healthcare sectors were amongst the weakest performers, whilst the Travel & Leisure and Banking sectors reported positive performances. Despite a relatively strong reporting season, equities were weak in this period due to uncertainties related to the ongoing pandemic and the US elections. There was significant hedging activity in the Fund during the month to smooth market volatility.

November was a truly extraordinary month. As news of the first Covid vaccines was announced, equity markets started a process of strong risk repricing which led to a fast rotation into value. The MSCI World closed the month up almost 13%, with Europe overperforming as the Stoxx Europe 600 gained 14% c.a., the strongest month since April 2009. Value outperformed Growth by more than 10% in Europe, with cyclicals and those names most impacted by Covid-19 leading the rally. Despite some initial uncertainty, the outcome of the US presidential election came into line with expectations, with Biden winning the race. Equity markets ended 2020 with a positive month, on expectations of a post-pandemic economic recovery. The MSCI World closed December up more than 4%, while the Stoxx Europe 600 gained 2.5% ca. Basic Resources, Travel & Leisure and Consumers were amongst the best performing sectors, while Telecommunications was the main underperforming sector. Growth returned to overperform Value for the month, although it is believed the rotation into Value that started with the Covid-19 vaccines announcement could have legs. This would be supported by the ongoing stimulus plans and the materialisation of the pent-up demand that should be released once the situation normalises. The UK-EU agreement on Brexit before the end of the year was another positive factor in December. Equity markets started the new year a mixed month, with the first part of January being positive, on the back of expectations of fiscal expansion and a potential post-pandemic recovery in the second part of the year. The end of the month was, however, relatively volatile, as we experienced a quite unique phenomenon of massive short-squeezes in some heavily shorted names, started by a retail-focused message in the US. Europe experienced some short-squeezes as well, although to a much lesser extent. In fixed income, government yields rose early in the month (meaning prices fell). In the US, the Democrats secured control of Congress to raise expectations of more fiscal stimulus. The US 10-year yield increased by 18 basis points (bps) to 1.09% over the month.

Directors' Report (continued)

The UK 10-year yield trod a similar path, rising just over 13bps, to 0.33%. In Europe, yields rose early on too, but were balanced by perceived hawkishness from the European Central Bank (ECB) and rising political risk in Italy. The German 10-year finishing 5.5bps higher at -0.52%.

For corporate bonds, investment grade credit saw negative total returns. Investment grade bonds are the highest quality bonds as determined by a credit rating agency; high yield bonds are more speculative, with a credit rating below investment grade. US credit outperformed US Treasuries, while the euro and sterling markets were in line with government bonds. Global high yield credit markets made moderate positive returns, mainly due to income. Hard currency emerging market (EM) debt weakened while EM corporate and local currency debt was marginally lower.

February was a positive month for equity markets, as investors continued to reprice growth expectations and the impact of reopening. In Europe, the Stoxx 600 index closed the month with a +2.3% c.a. gain. The Banks, Travel & Leisure and Basic Resources sectors were amongst the top performers whilst the Utilities, Consumer Staples and Pharmaceuticals sectors lagged, as the yield on the US 10-year treasury closed the month above 1.4%. The MSCI World ended the month up c.a. +2.5%. In fixed income, government bonds saw a sharp sell-off in late February, with corporate bonds outperforming. Having risen steadily on expectations of substantial US fiscal stimulus, government yields lurched higher late in the month (meaning prices fell), as a US Treasury bond auction saw muted demand. The US 10-year Treasury yield rose 36 basis points (bps) to 1.43%. Italian government bonds outperformed German, as investors welcomed the appointment of Mario Draghi as prime minister. The UK 10-year yield increased by 49bps to 0.82%, reflecting optimism around the UK's fast vaccine roll-out and plans for easing lockdown.

Equity markets had a very positive performance in March, as investors continue to reposition growth expectations and take into account the reopening of economic activities. In Europe, the Stoxx 600 Index closed the month up more than 6%. The MSCI World Index ended the month up more than 3%. European equities outperformed the rest of the world during the month, thanks to a higher exposure to cyclicals and value names. Developed market equities gained in April with the US leading the way, buoyed by a swift vaccine roll-out and fiscal stimulus measures. Emerging market shares saw positive returns but lagged developed markets. The pandemic continues to be a major concern in several emerging markets, notably India.

The sharp sell-off in US government bonds came to a halt in April, helped by comments from the Federal Reserve (Fed). European yields rose (i.e. prices fell), continuing to diverge from the US, due to rising growth and inflation expectations. With continued optimism over the economic recovery, corporate and emerging market bonds performed well and the US dollar weakened.

Equity markets had another strong month in May, thanks to a supportive macro environment, positive earnings figures and the vaccine rollouts. In Europe, the Stoxx 600 Index closed the month up approx. +2.1%. The MSCI World Index ended the month up approx. 1.3%. In Europe, Consumers, Retail and Banks were amongst the best performing sectors, while Travel & Leisure was the only negative sector. Government bond yields were little changed in May, consolidating having sold-off since the start of the year. The US 10-year Treasury yield was three basis points (bps) lower at 1.59%, and the UK's 10-year fell 5bps to 0.80%, both having risen significantly year to date. Emerging market bonds made positive returns, ahead of developed markets, led again by high yield. Commodities prices continued to rise. Emerging market currencies broadly performed well as the US dollar weakened.

European equity markets had another positive month in June, the fifth in a row, thanks to strong macro data and recovering earnings. The continued spread of the Covid-19 delta variant caused some volatility. In Europe, the Stoxx 600 index ended the month up approximately +1.4%, in line with the MSCI World index. Healthcare and Technology were amongst the best sectors, whilst the Banks and Travel & Leisure sectors reported mid-single digit losses. The 10-year Treasury closed the quarter at 1.47 percent, down 30bps from the high at the end of the first quarter. Part of the reason for the fall in yields also may be attributable to the smaller bipartisan infrastructure deal, which at \$550 billion would result in a smaller projected deficit. However, this is subject to change if the Democrats pursue a larger infrastructure proposal through reconciliation, which may re-ignite inflation fears and push yields higher.

Independent auditor's report

To the Unitholders of
PALLADIUM FCP
2, boulevard de la Foire
L-1528 Luxembourg
Grand-Duchy of Luxembourg

Opinion

We have audited the financial statements of PALLADIUM FCP (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at June 30, 2021, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at June 30, 2021, and of the results of their operations and changes in their net assets in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company of the Fund (the "Board of Directors") is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of Board of Directors of the Management Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s or any of its sub-funds’ ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d’entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PALLADIUM FCP

Notes to the Financial Statements as at June 30, 2021

Note 1. General Information

PALLADIUM FCP (the "Fund") was created as of January 8, 2016 as a mutual investment fund ("Fonds Commun de Placement") under the Luxembourg law for an unlimited duration. The Fund is registered in the Grand Duchy of Luxembourg as an Undertaking for Collective Investment (a "UCI") pursuant to Part I of the law of December 17, 2010, as amended (the "2010 Law").

As at June 30, 2021, the Fund offered the following sub-funds:

- PALLADIUM FCP - CRESCITA PROTETTA, launched on March 17, 2016
- PALLADIUM FCP - CAIRN MEDIOBANCA STRATA UCITS CREDIT FUND, launched on May 14, 2019

The launch date of the sub-funds corresponds to the date of the first NAV calculation.

For the time being, the sub-funds may offer the following classes of units:

- Classic Class (hereafter "C"): offered to retail investors.
- Institutional Class (hereafter "I"): offered to institutional investors holding the units as part of their own assets or acting on behalf of individual or corporates entities.
- Management Class (hereafter "M"): offered to certain investors only including (i) Cairn clients, (ii) persons connected to the Investment Manager and (iii) other investors at the discretion of the Board of Directors of the Management Company in consultation with the Investment Manager.
- Planner Class (hereafter "P"): offered only to investors subscribing via Allfunds Bank S.A.U..

Note 2. Exchange rates as at June 30, 2021

The exchange rates used for the translation of the sub-funds' assets and liabilities not denominated in the reference currency of the sub-funds are as follows:

- 1 EURO (EUR) = 1.184900 US Dollar (USD)
- 1 EURO (EUR) = 0.858520 Great Britain Pound (GBP)

Note 3. Significant accounting policies

The financial statements are presented in accordance with Luxembourg regulations relating to Undertakings for Collective Investment in transferable securities.

3.1 Combined financial statements

The various items in the combined financial statements correspond to the sum of the corresponding items in the financial statements of each sub-fund, converted if necessary into EUR at the exchange rates prevailing on the closing date.

3.2 Foreign exchange translation

The accounts of each sub-fund are denominated in the currency in which its net asset value is calculated.

The financial statements have been drawn up in the accounting currency of each sub-fund. Assets and liabilities expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the closing date.

Income and expenses expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the transaction date.

3.3 Presentation of the financial statements

The financial statements are presented on the basis of the latest net asset value calculated during the financial period. In accordance with the prospectus, the net asset value was calculated using the stock market prices and the latest exchange rates known at the time of calculation.

Notes to the Financial Statements as at June 30, 2021 (continued)

Note 3. Significant accounting policies (continued)

3.4 Valuation of investment portfolio

The Net Asset Value per each class of units is determined on the day specified for the each sub-fund (the "Valuation Day") on the basis of the value of the underlying investments of the relevant sub-fund, determined as follows:

(a) The value of each security and/or financial derivative and/or money market instrument which is quoted or dealt in on any stock exchange is based on its last closing price on the stock exchange which is normally the principal market for such security and/or financial derivative and/or money market instrument known at the end of the day preceding the relevant Valuation Day;

(b) The value of each security and/or money market instrument dealt in on any other regulated market is based on its last known closing price which is normally available at the end of the day preceding the relevant Valuation Day;

(c) Shares or units in open-ended investment funds shall be valued at their last available calculated net asset value;

(d) In the event that any assets are not listed or dealt in on any stock exchange or on any other regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or other regulated market as aforesaid, the price as determined pursuant to sub-paragraph (a) to (c) is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sale price determined prudently and in good faith;

(e) All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Management Company.

In accordance with the prospectus, the NAVs were calculated using the latest market values and exchange rates known at the time of calculation.

3.5 Valuation of forward foreign exchange contracts

The forward foreign exchange contracts opened at year-end are valued at the forward exchange rate corresponding to the termination date of the contract. Realised gains and losses and net change in unrealised gains and losses are included in the statement of operations and changes in net assets. Unrealised gains and losses are included in the statement of net assets.

3.6 Valuation of swap contracts

Swaps are valued at their fair value based on the underlying asset.

Total Return Swaps ("TRS") are over-the-counter financial contracts used to gain exposure to fluctuations (positive or negative depending on the direction of the transaction) in financial instruments, baskets of financial instruments or indices without having to own or borrow the underlying financial instruments.

TRS are valued by reference to the market value of the underlying assets, taking into account the costs inherent to the transaction.

An Interest Rate Swap ("IRS") is an agreement to exchange interest rate cash flows, calculated on a notional principal amount, at specified intervals (payment dates) during the life of the agreement.

A Credit Default Swap ("CDS") is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payment unless a credit event relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate.

The unrealised gain / loss on swap contracts is recorded under the item "Net unrealised gain / loss on swap contracts" in the statement of net assets.

The changes in such amounts are included in the statement of operations and changes in net assets under the item "Net change in unrealised gain / (loss) on swap contracts".

When a contract is closed, the realised gain or loss is recorded under the item "Net realised gain / (loss) on swap contracts" in the statement of operations and changes in net assets. The item "Net realised gain / (loss) on swap contracts" includes also the premium paid or received on swaps contracts.

PALLADIUM FCP

Notes to the Financial Statements as at June 30, 2021 (continued)

Note 4. Investment management fees and performance fees

The investment management fees are payable to the Management Company in compensation of its investment management services. Such fees are payable quarterly and are calculated on the basis of the average net asset value of each class of units for the relevant quarter.

Starting from January 15, 2021, an all-in fee of 2% for Classic units and 1.3% for Institutional units includes all costs and charges of the Sub-Fund PALLADIUM FCP - CRESCITA PROTETTA. In case the real costs exceed the all-in threshold, the delta is paid by the Management Company in favor of the Sub-Fund. The all-in fee includes inter alia the management fee and the advisory fee. Such a fee is payable quarterly and calculated on the average of the net assets of the Sub-Fund for the relevant quarter.

As at June 30, 2021, the annual investment management fees rates per class of units are as follows:

Sub-fund name	Class C1	Class C4	Class C4 DIS	Class C5	Class C5 DIS	Class C7	Class I1	Class I4	Class I5	Class M
PALLADIUM FCP - CRESCITA PROTETTA	1.40%	N/A	N/A	N/A	N/A	N/A	0.70%	N/A	N/A	N/A
PALLADIUM FCP - CAIRN MEDIOBANCA STRATA UCITS CREDIT FUND	1.35%	1.20%	1.20%	1.20%	1.20%	0.80%	0.75%	0.50%	0.50%	None

During the initial ramp-up period and whenever the Basket Portfolio value is below the Protected Value, the management fees applied to each class of units of PALLADIUM FCP - CRESCITA PROTETTA will be reduced to 0.35%.

PALLADIUM FCP - CAIRN MEDIOBANCA STRATA UCITS CREDIT FUND

For the classes of units I4 and I5, the Investment Manager is entitled to receive a performance fee being a percentage (15%) of the appreciation of the net asset value per unit, subject to a high water mark, calculated and accrued daily on each valuation day and paid at the end of each calendar year i.e. 31 December (the "Performance Period").

For each Performance Period, the performance fee is equal to 15% of the positive difference between (i) that relevant class net asset value before accrual for performance fee at the end of the Performance Period and (ii) the class high water mark threshold.

The class high water mark threshold is as of a valuation day equal to the higher of:

- the class high water mark: net asset value per unit of the relevant class on the last day of any Performance Period in respect of which a Performance Fee was charged,
- the net asset value per unit on the date of investment increased by the class hurdle rate (12 month EURIBOR plus 2% for I4 and \$ LIBOR plus 2% for I5).

Note 5. Depositary bank, Management Company, administration and risk management fees

The Management Company is entitled to receive a management fee of a maximum of 0.10% per annum, calculated on the average quarterly net asset value of the Fund for its activity as Management Company.

As remuneration for services rendered to the Fund in their respective capacities, the Depositary bank receives from the Fund, a fee of a maximum of 0.75% per annum. Depositary bank fees are payable quarterly and are calculated on the basis of the average net asset value of the Fund for the relevant quarter.

A fee of a maximum of 0.80% per annum calculated on the average quarterly net asset value of the Fund is charged to the Fund for central administration services.

Moreover, for its risk management activities, the Management Company is entitled to receive from the Fund a fee of 0.025% per annum, payable quarterly and calculated on the average quarterly net asset value of the Fund.

Note 6. Subscription Tax

The Fund is not liable to any Luxembourg tax on profits or income, nor are distributions paid by the Fund liable to any Luxembourg withholding tax. The Fund is, however, liable in Luxembourg to a tax of 0.05% per annum of its net asset value,

PALLADIUM FCP

Notes to the Financial Statements as at June 30, 2021 (continued)

Note 6. Subscription Tax (continued)

such tax being payable quarterly on the basis of the value of the aggregate net assets of the sub-funds at the end of the relevant calendar quarter. The Fund is liable to a tax of 0.01% per annum of the net asset value on Institutional Classes. No stamp duty or other tax is payable in Luxembourg on the issue of units. No Luxembourg tax is payable on the realised capital appreciation of the assets of the Fund.
